## New Professor Program Application Form

### About the Program

The Clearpath Robotics New Professor Program was established to support new professors by helping to provide them with the tools and equipment needed to advance the study of robotics.

In addition to the perks and benefits of the New Professor Program, qualifying applicants are also eligible to be awarded a free Husky Essential Package consisting of a Husky Unmanned Ground Vehicle (UGV), integrated on-board computer and universal mounting plate accessories. Applications for the New Professor Program are accepted on a rolling basis. Husky UGV awards will be announced in August, December and April.

Prize packages will be awarded based on the entry application as well as an assessment of the quality and scope of previous works of the applying professor as decided by the New Professor Program judging committee, including Clearpath's Chief Technology Officer.

### Eligibility

Applicants must be new professors within one year of application submission.

### Submission

Please submit completed application form to: [newprof@clearpathrobotics.com](mailto:newprof@clearpathrobotics.com).

What is your equipment budget?

How did you hear about the New Professor Program? (If referred, please state the person's name and organization.)

Are there any other details you would like to share with the judging committee?

### Terms and Conditions

The New Professor Program applicant hereby agrees to provide Clearpath Robotics Inc. with marketing material including, but not limited to, video footage of equipment and team, high resolution photographs of equipment and/or team, and responses to questionnaires. Upon material submission, Clearpath Robotics Inc. will have the right to own, use and distribute submitted material.

I, \_\_\_\_\_, have read and agree to the terms and conditions
